The boudoirs, having had all their arguments bawled over, are beginning to indulge in abuse, a sure precursor of defeat.

WORKMEN who want work should vote "No" on the Ballona scheme, or injunction suits will defer work on the sewers for a couple of years.

The boudoirs grow more desperate day by day, as they see their chances of handing that \$1,250,000 growth small by degrees and beautifully less.

THE boudoirs and their organ have aroused an outraged and indignant public opinion which will not at once subside, after the Ballona bubble has been burst.

THE sewage system at Los Angeles was a nuisance a year ago, through mismanagement. The sewer system at Vernon today is a success, as it may be made near Florence. There is the whole thing, in a nutshell.

REFERRING to a recent letter of Col. Blanton Duncan's on Redondo Beach, a correspondent at that place says that if the company desires to make an important port of Redondo, it will do so in its own manner, even though it cost \$5,000,000. None would rejoice more than THE TIMES, at so desirable a conclusion.

VOTERS will notice that the Board of Trade, Democratic and Republican conventions and other bodies carefully refrained from indorsing the Ballona or any other particular route for the sewer. This was quite natural. They desire the best plan for the city, not the one which will yield them personally the greatest profit.

THE animus of the Ballona boudoirs may be seen in the fact that their organ has almost ceased expatiating on the "advantages" of the Ballona-bodle-Gun-Club route, in order to attack THE TIMES. This also shows that the clear-cut facts which we have been presenting are beginning to get in their deadly work on the Ballona balloon.

ONE thing about THE TIMES, which even its enemies are forced to admit to themselves, however loth they may be to do so to others, is that it is thoroughly independent, unbiased and honest, in the discussion of public matters. This gives us an advantage in securing the ear of the public, which we could never enjoy, were we known to be the organ of a boudoir gang. THE TIMES is on the side of both right and justice every time, and the people know it.

THE NAMES for the new hotel continue to drift in upon us. Meantime, we don't hear much about those subscriptions for the building. If the hotel can't be built just now, how would it be to utilize the foundation by putting a light one-story building over it and using it as an exposition of Southern California products, with a promenade concert every evening. Then, as soon as times should warrant it, off could go the exposition building and up go the hotel.

THE TIMES is informed that many of the interviews on the sewer question, published in the Trombone, are bogus, and that, whenever an interview results unfavorably to the bonds, as is frequently the case, such interview is suppressed. This is another proof of the now generally understood fact, that in this fight, the Trombone is influenced, not by a desire to further the public interest; but by a desire to ascertain the truth; but simply by a desire to earn its share of the boudoir.

ANOTHER DEFINITE PROPOSITION.

One of the favorite arguments advanced by the advocates of the impracticable Ballona scheme is, that no other definite proposition has been made for the disposal of the sewage. THE TIMES has repeatedly stated that there would be an amplitude of offers as soon as there was any opening for them, and has outlined at least one proposition.

In confirmation of our position, we print today a communication from Mr. M. Wells, who has interviewed a number of residents in the section south of the city, the result being that definite offers have been obtained from owners of over 6000 acres to take the sewage of the city for ten years or more, summer and winter, without further expense to the city. Including the area which will soon be irrigated by the South Side Company, this will make a total of 10,024 acres, or more than all the Los Angeles River has ever irrigated, according to the City Engineer.

The present sewage of the city—250 inches—is used on 2000 acres or less, summer and winter, and none reaches the river. Therefore, 10,000 acres would care for 1250 inches, or three times as much as the city is likely to have for many years to come, without "polluting the stream." There is, however, plenty more room, as the Nadeau vineyard of \$100 acres is willing to take all the sewage, for ten years, leaving thousands of acres which can use hundreds of inches more. If there should be any trouble about a right of way, the pipes could be run along the public roads.

This plan would, as our article shows, save about the whole cost of the outfall sewer, or \$40,000. At the same time, it would bring much extra wealth to the city, and cheapen the price of necessities. Why should we throw away nearly half a million dollars to dump the sewage in the ocean when we can enrich the land and raise crops with it? Why indeed, unless there is a big job in it! The man who, in face of all this indisputable evidence, continues to advocate the casting of our sewage into the ocean, is no friend of Los Angeles.

Here, then, is a definite proposition. It shows what can be done. Probably, with a little effort, we might get a yet more favorable proposition from some of these people who are so anxious to get the sewage. If they want it badly, they may be willing to pay for it. It is worth paying for. In any case, the least desirable offer in this direction is with a little effort, we might get a yet more favorable proposition from some of these people who are so anxious to get the sewage. PASADENA NEWS.

A LIVELY BUDGET FROM THE CROWN.

A Strong Indorsement — After a Burglar — Hero and There — A Public Meeting — The Cross Road — Read Closer — Local Mention — Personal Mention.

PASADENA, Aug. 13.—[Correspondence of THE TIMES.] Hon. A. G. Throop of the City Council comes out in a strong indorsement of the policy and plan advocated by THE TIMES in the Los Angeles sewer muddle. Mr. Throop has been a resident of Chicago for nearly 50 years, and as a member of the Council for several terms of that great city has watched closely the construction of her sewers and the many defects which had to be remedied from time to time in order to bring it forward to its present condition. The venerable legislator says a sewer to the ocean is a fallacy, a scheme of boodle politicians, and one which the people will repent in sackcloth and ashes six months after it would be completed. The only way to dispose of the sewage is by the route proposed by THE TIMES. Mr. Throop has a brother who owns property along this line, who this year, with the use of the sewage, will raise seven crops of alfalfa and three crops of corn, and an abundance of other vegetables and fruit. There is no stand, said he: "Everybody is as pleasant as can be, our party is. Mr. Throop is strongly of the opinion that this city is disposed of her sewage in the right direction, and that the courts should act speedily in granting the right of way to the sewer farm beyond Alhambra.

READ MORE CLOSELY.

W. A. Vanderhook comes out in an announcement in the Trombone of this morning that Pasadena should swear to the ocean. The gentleman has his argument on the statement made by the Times correspondents, that this city had 100 years in 200 days. Mr. Vanderhook, who is no doubt a close reader of this journal, forgot to record the fact that 40 of the deaths resulted from consumption, and that 80 of this number were non-residents. Of the 100 deaths only 83 were inside the city limits.

PUBLIC MEETING.

A meeting of the voters and citizens of the San Pascual School District will be held at William's Hall on Thursday evening, August 15th, at 7:30 o'clock, to consider what action shall be taken in regard to the present situation of our school district affairs.

MANY CITIZENS.

THE CROSS ROAD.

Work on the grading of the Cross road has not as yet commenced. The surveyors are still at work, but when they will be followed by the working crews is a question of the future. The delay is caused by an injunction suit, gotten out by property-owners in South Pasadena, who own real estate fronting on the street in that suburb, through which the line passes. Applications for employment are numerous, but the force is about made up, ready to move when the signal is given. It seems a long time after so much delay.

Commercial work on the road cannot commence immediately. The road should be in operation when the Raymond opens. In grading the road at the Raymond cut, the Annex building will have to be supported by about 30,000 brick. Bids are now being received for the building of a twelve-foot wall, a number of Pasadena contractors being given a chance in the work.

CONDENSED ITEMS.

A special meeting of the directors of the Pasadena Lake Vineyard Land and Water Company was called for last evening at the office on East Colorado street. There was no quorum. It has been decided, however, to employ legal aid to fight the suit over the Richardson Springs property, the defendants being the Painter brothers.

The article which appeared in yesterday's Herald, stating that a settlement had been effected in the Banta Hill case, and that the State Loan and Trust Company had been appointed trustee, is rather preposterous. Banta has been given 10 days in which to reply to the offer made by William Pierce, and up to date the plaintiff has not as yet affixed her signature to the document now awaiting a final and amicable disposal at the First National Bank in this city. If not signed, the defendant proposes to fight until he is beaten by the law.

AFTER BURGLARS.

Ralph Rogers lives near the hotel at Garvanza. Last evening he thought he heard burglars around the house and hurriedly dressing, hid himself with a small army of ammunition to give them a warm reception. Going outside he saw somebody hastily leaving a house and immediately gave chase. The thief and his confederate had a horse and buggy, and hurriedly left their pursuer in the dark. It was not learned whether anybody was making an attempt to carry off the toll bridge.

At 3 o'clock Col. Dunkelberger and Montaño walked into the Sheriff's office, and the Colonel stated that he wished to be released from the bond. Gen. This we do, and in this list many items bear out the actual cost of manufacturing, which were you, to find elsewhere you would be obliged to pay more than twice the price we ask. We say these things and are anxious to prove them. This can only be done by paying us a visit, inspecting the goods and asking the price. We will be pleased to show you the general truth.
